Group Activity - Creating a Video game

Kinds of Video games

Role Playing Game (RPG) - A game where people play as a character and play in a fantasy world. They can ask questions, complete quests and buy things. Final Fantasy and World of Warcraft are RPGs.

Action - A game where people have to fight. Call of Duty is a popular action game.

Horror/ Survival - A game with fear. Sometimes it has ghosts or zombies. Resident Evil is a very popular example of a horror game.

Sports - A game where the player plays a sport such as football or tennis. Fifa is the most popular.

MMO (massive multiplayer online) game - You can play against other people on the internet. Again, World of Warcraft is also a MMO game but some Thai people like ROV.

Mobile games - Games that people like to play on their telephones. Angry Birds is the most popular.

Creating your video game.

Your task is to create your video game. What is the name of the game? ___________

You must think about the character(s) that people play in the game

What is the name of the game?
__________________________

What kind of Video game is it?
__________________________

Describe the game. (What to do? How? Why?)
